

THE **RODNEY** GROUP

PROJECT MANAGEMENT & CONSTRUCTION GUIDE

A GUIDE TO OUR PROJECT MANAGEMENT
& CONSTRUCTION CAPABILITIES

01 ABOUT US

WHAT WE DO

From humble beginnings, The Rodney Group has evolved into a dynamic construction company capable of handling a wide array of projects and disciplines.

Our expertise covers everything from design and consents, earthworks, drainage and foundations through to carpentry, steel construction and internal fitout.

Utilising our in-house team of builders and specialists across all industries, along side our own fleet of machinery, we can ensure the highest quality and efficiency for your new build home, industrial development, or impliment shed.

OUR STORY

Driven by a passion for construction, a commitment to quality, and uncompromising integrity, we started our journey with humble roots. Over time, we have transformed into a construction company capable of tackling intricate and ambitious projects.

As we've expanded, so have their skillsets, enabling us to offer high-end bespoke homes and complex industrial developments, along side simpler structures like garages and sheds.

With a wealth of experience and diverse skills, our team has played a crucial role in our growth. Our evolution is a testament to our commitment to excellence and innovation in construction.

02 PROJECT MANAGEMENT & CONSTRUCTION

THE RODNEY GROUP OFFERS A COMPLETE TURN-KEY PROJECT MANAGEMENT AND CONSTRUCTION SOLUTION.

We cover the entire process from initial design and building consents to earthworks, drainage, foundations, and construction of your Wide Span Shed. We also handle internal fit-outs, ensuring efficient project management.

With our in-house team of skilled builders, specialists across various industries, and our own fleet of machinery, we guarantee the highest quality and efficiency for your new home, industrial development, or implement shed, providing peace of mind and exceptional results from concept to completion.
